SEMINARS + WORKSHOPS + EXHIBITIONS + EXPERIENCES

# WELCOME

**MEREDITH  
MELVILLE-JONES**

**Director**  
Bradfield Senior College

Welcome to the Creative Careers Day, a Bradfield Senior College initiative as part of Vivid Ideas 2016.

The creative industries are evolving as a major force in the global economy and navigating careers in this industry can be complex. In the spirit of Vivid and as a senior school specialising in this area we wanted to help students understand how to survive as 'new creatives'. Our students, Generation Z, inhabit a connected world and so as educators we must adapt to these changes. Reports are forecasting the workplace of the future (individuals will have 17 jobs in 5 industries). Students ask: What does this mean? How secure will our futures be?

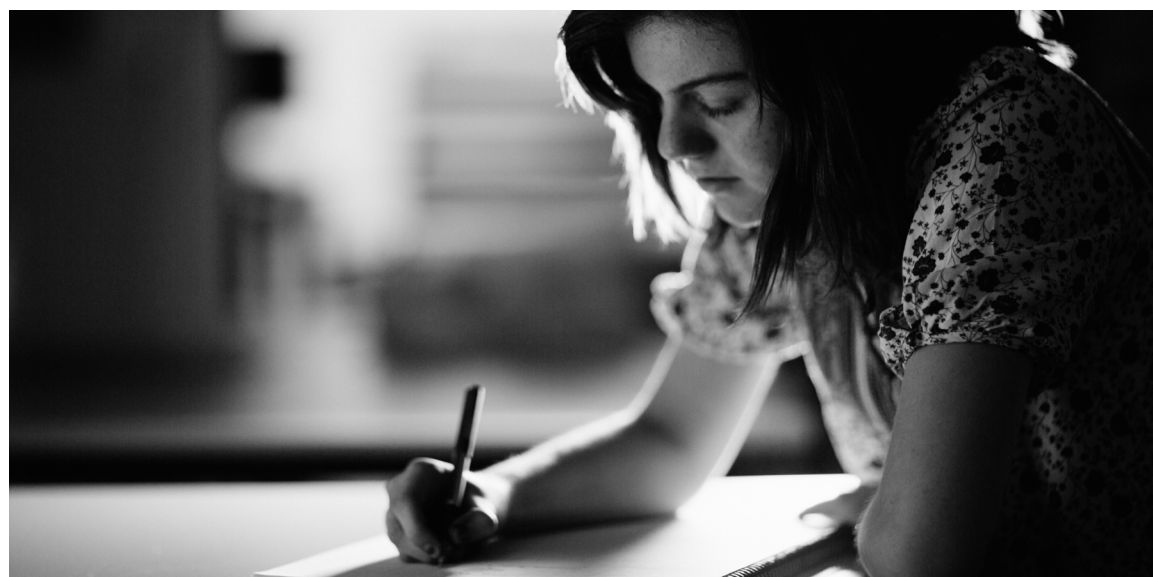

We want students to speak directly with experts from the creative industry to discover where the jobs are, what skills are needed and valued and the steps they should take to forge a creative career. It makes a welcome change to the traditional careers expos with brochures and stands and not a lot of detail about what the industry is really like.

The Vivid Ideas Creative Careers Day has also been an immersive, interactive learning experience. Our students and staff have been actively involved in staging the event as part of our Industry Experience program. It's created an explosion in creative ideas that are inspiring. We can see the culture of Bradfield has shifted from an inward to an

outward focus. Students are actively creating and making, starting businesses as part of our Bradfield Co-op and embracing the challenges these projects bring to learning. Something we believe Sir John Job Bradfield would be proud of as a visionary. Our tribute to him is a portrait painted by one of our HSC students, Vincent 'Bunyip', which now adorns our college building.

So, today – **immerse yourself**. Be creative, get involved in our workshops, seminars and experiences, and support our emerging creatives at their Art and Design market.

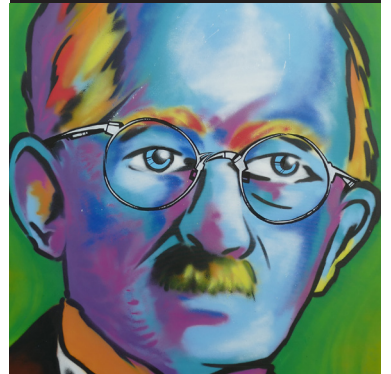

**CREATIVE  
CAREERS  
DAY**

Our Human Library functions similarly to other libraries, except that in a human library, people—rather than books—are available for checkout. Every industry expert speaking in a seminar will be available immediately afterwards in the Music Wing Music Studios, for people to ask questions and gain advice on starting a career in the creative industries.

## ENGAGING CREATIVE STUDENTS IN THE SENIOR HIGH SCHOOL YEARS

Start the long weekend with an inspiring forum on how to inject new ways of thinking into your teaching and stay afterwards to watch Sydney light up from the Museum of Contemporary Art.

Innovation, entrepreneurship and creativity are now words that dominate the education, business and political arenas, but how do we teach creativity and innovation in an environment dominated by strict curriculum guidelines that focus on 'teaching for results'?

The panel will provide insight into real world needs for graduates and educators, present current innovative work and tackle the issue of how we can work with and change current practice to produce strong creative thinkers.

# THANK YOU FOR MAKING TODAY

The Creative Careers Day would not have been possible without the support of a number of people and our first thanks go to Jess Scully, the curator of Vivid Ideas and her team who had faith in our idea from the beginning and have been a great support. To all our industry speakers and workshop facilitators- your generosity and support is greatly appreciated. We know that giving back to young students will benefit them in so many ways and so your time here today will have a lasting legacy.

Our heartfelt thanks and admiration go to the wonderful staff at Bradfield. Your energy and enthusiasm is without equal. We know there has been a lot of additional work and we hope you all know that is very much appreciated. It is a privilege to work with such professional people.

To all the support staff at the Northern Sydney institute of TAFE including Campus Services, ICT, CX Ambassadors, our events team and Sales and Customer Experience – thank you. In particular we want to thank Linda Gibby for her innovative design work and constantly meeting such tight deadlines.

We're not sure how a simple thank you can possibly do justice to Jennifer Street from the Institute's Sales and Customer Experience team. Jen has been instrumental from day one in pulling the whole event together. It's been exciting to watch the event evolve and grow and to share your enthusiasm and inspiration.

And finally, to our wonderful Bradfield students: This event could not have been staged without your hard work, your astounding creativity and persistence. Thank you all and I sincerely hope that you have all been inspired to go out and make, create and change the world.
